# College Auditing

International students are often unsure what to expect when entering an American college classroom for the first time. In addition to dealing with a foreign language, they must be ready for aspects of American higher education which are very different from those in other countries.

With this in mind, FLS is pleased to offer our College Auditing program. In this program, students can sample one or more college courses to experience educational methods in the United States. Students will gain first-

hand knowledge of the English proficiency level required to successfully understand a college or university lecture and follow a class discussion.

Students may begin their auditing program on customized dates and for various lengths of time, depending upon their campus location and the college academic calendar.

When students finish their auditing experience, they'll have a greater understanding of American educational techniques.

# High School Completion

**The pathway to success begins with an American high school diploma! But many international students hoping to complete a diploma don't have the time or resources to attend a U.S. high school and are looking for alternate options. Others want to add a diploma from the U.S. to their other credentials.**

Now at FLS, students can earn high school credit, complete their high school studies and earn their diploma. FLS and Penn Foster High School have joined forces to offer this program especially designed to get students on the right track for high school success.

Penn Foster is a fully accredited school founded in 1890. The school's diploma is accredited and accepted by colleges and universities across the United States. Students in the High School Completion program can accelerate their English learning with our core class curriculum and academic workshops. Then, for two hours each day, students work with our supportive teaching staff and follow a customized curriculum to meet the exact requirements needed to complete their diploma.

# Accommodation: Homestays

Staying with an American host family is one of the best ways for students to improve their English quickly and effectively. Living with a host family allows students to experience the American lifestyle at a personal level. Students participate in family activities, practice their English with family members and build long-lasting connections and relationships.

Welcoming homestays are available at all FLS campuses. Each home is located within easy travel distance of the campus and provides a comfortable and friendly environment.

Each host family is carefully selected by FLS. Our dedicated housing staff visit and interview each family personally, ensuring that each home will meet student expectations. Many of our families have years of experience in hosting international students and introduce their neighbors and friends to our program.

For most students, FLS recommends our twin room homestay option: Two students with different native languages share a bedroom, providing additional opportunities for English practice.

A single room option is also available.

# Volunteer Opportunities

**Now more than ever, students are looking for ways to reach out and contribute to the community around them.**

Volunteering is not only a chance to assist others and connect with the community, but is also a great way to meet Americans and gain valuable real-world experience.

Selective colleges and universities are searching for well-rounded candidates when making admission decisions. Having experience in community assistance programs is an excellent way to round out a student's background and show their diverse interests. Not only that, but volunteering often provides memorable experiences that can last a lifetime.

FLS has carefully selected the perfect volunteer opportunities for international students. Participants in the program will gain practice in speaking English and valuable insights into American culture in a structured environment.

Each FLS center offers unique volunteer opportunities based on the specific requirements of their community. We work with organizations from food banks and women's shelters to schools and convalescent homes, offering a wide range of experiences.

Best of all, students enrolled in FLS classes can participate in these opportunities at no additional charge!

# Exclusive Features

FLS is truly like no other language school, with unsurpassed customer service and an outstanding curriculum. Check out some of our unique features!

## CUSTOM TEXTBOOKS

Many levels use Patterns, our own custom-made textbooks, developed specifically with FLS students in mind. These texts use a modular format that allows students to master new English concepts, vocabulary terms and grammar skills each week. Throughout the texts, students meet characters who encounter different aspects of American culture brought to life through audio and video elements.

A new unit is covered each week, including many chances for student interaction and concluding with a project in which students prepare and present material to the class.

This contemporary, interactive series helps students take their English to impressive new levels!

## ENGLISH EVERYWHERE

English Everywhere centers on the **Hot Sheet**, a quick reference for all the key language points for that week.

Each Hot Sheet focuses on a different theme, with conversation starters, songs and movies that explore the theme in greater detail. Students are encouraged to keep their Hot Sheets with them and refer to them throughout the week. With FLS International, you really can learn English Everywhere!

Students can download and share Hot Sheets at [www.fls.net](http://www.fls.net)

## CONCIERGE SERVICE

Our staff truly goes the extra mile to ensure that each student has the best possible experience. School personnel are well-versed in helping students adjust to life in the United States, whether it's opening a bank account, finding a great restaurant or getting a driver's license.

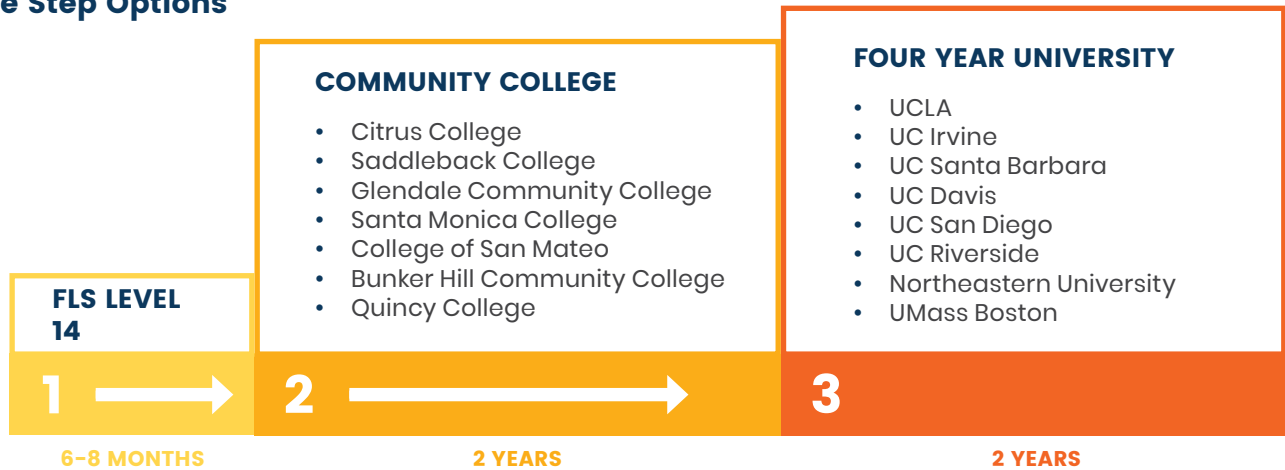

Because FLS operates all of our own school services, we're able to take quick, responsive action to student requests. If a student has concerns about housing, an activity, or any school-related issue, we have personnel available around the clock, ready to quickly and effectively address the matter.

# Pathways at FLS

There are many different pathways to take to earn an American university degree. FLS International works with each student to find the best path based on the student's background, interests and goals.

## SAMPLE PATHWAYS

### Three Step Options

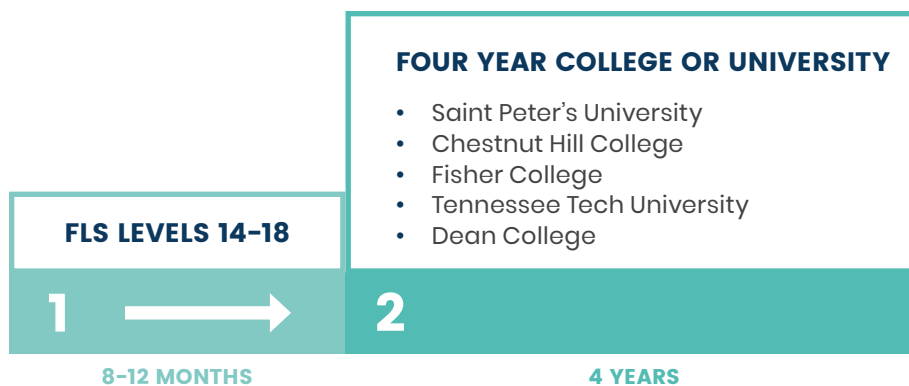

Students begin their educational journey at **one of our five FLS locations** where students will improve their English proficiency and gain the skills needed to succeed in the American academic system. Students who complete Level 14 may then transfer to a community college and complete an Associates' Degree. Afterwards, students can transfer to a four-year university to complete a Bachelor's Degree.

In order to transfer into a school in the California State University system, students must maintain a GPA of 2.0 or better while completing their Associate's Degree. Popular campuses include CSU Fullerton and CSU San Diego. Students wishing to enter the prestigious University of California system must maintain a GPA of 3.0 or better while completing their Associate's degree in order to transfer to such schools as UCLA and UC Santa Barbara.

Much like the UC system, students must maintain a GPA of 3.0 or better to transfer to schools in the University of Massachusetts system. Many other campus options across the country are also available.

### Two Step Options

Students may choose to complete a more advanced FLS level (15-18, depending upon school) and transfer directly to a 4-year college or university. Our host campuses, Saint Peter's University and Chestnut Hill College, work closely with FLS to ensure a seamless transition to their institution.

# Testimonials

“

Studying at FLS changed my life. I had so many opportunities to make many friends and to broaden my horizons. In addition, it is possible to meet students who are from different countries. For example, Japan, China, Thailand, Brazil, Saudi Arabia, Russia, etc. In this way, I was able to learn different countries' cultures. Moreover, I was able to stay with homestay family. I learned American culture from my host family. Additionally, students can go to downtown LA which is a beautiful and exciting city. For these reasons, FLS students will be able to have a life-changing experience studying English at FLS.

“

I am Tran from Hai Phong, Vietnam. I am currently working for a Canadian education consulting company. I started FLS International in 2013 for five months. After that, the Universal Placement Program helped me transfer to De Anza Community College (the best community college, in my opinion). During this five months study with FLS, my teachers prepared me very well. I was chosen for Public Policy School along with 8 other students. We were trained in policies lobbying by two amazing political science professors. Due to my outstanding language skills and public speaking skills, I was chosen to travel to Washington DC to meet with Senators, congressmen and different NGO organization founders. I got accepted by four different universities: UCB, UCSB, San Jose State University, and University of Oregon.

“

Southern California is an amazing mix of diverse cultures that gives students an unforgettable exposure to many aspects of America. At FLS you will be part of a supportive community that will help you to be a better English speaker, grow as a person, and make progress toward your life goals.

Ph.D. in Speech Science and Technology, USC

“

I have been in many schools but at FLS International administration staff really cares if students do well and go to school. In other schools, they don't care if you come or not. I also like the fact that everything is well organized. On one hand, education is demanding and on a high level on the other, you can ask for non-standard things and they will be done. This is also the first time I have attended activities in any school and it was great to see that they actually care if we are having a good time...My progress is visible. I want to say something about homestay. The prices are affordable and they really listen to what you need. So you can live almost any way you like.

—**Abdalla**, FLS Student (*Saudi Arabia*)

“

This story might sound unbelievable, but it's true...a lot of native speakers are surprised I've been living in the US for only 3 years! FLS is what began it all. I feel so fortunate to have been in here. Teachers have amazed and inspired me daily. Then, they helped me to grow! Look! I'm ready to fly now! They're really welcoming, friendly, and helpful. That's why I still visit [my teachers] even though I graduated from FLS 3 years ago! I'm thankful for FLS, teachers and friends who I met in here, they changed my thought, gave me motivation to live in California. What can I do for FLS now? I can only say thank you!
