2 great locations

Good Hope Studies is a local, privately owned language school. Each of our staff members contributes to our friendly yet professional team which works together to bring you closer to your English goals and to the Capetonian way of life.

Good Hope Studies was founded by Alexander Kratochwil and Wolfgang Graser in 1995. Our idea was to open a language school that was different from all the other schools. We wanted to provide a learning environment which is relaxed and fun to study in. Instead of renting cheap office space in the noisy city centre, we started our first school in a lovely private house in the leafy residential area of Newlands. The school was close to the host families, saving students on travel time. It was also close to public transport and close to the commercial centre. Our students learnt English in the shade of an old oak tree instead of listening to the dull hum of air-conditioning. It turned out that students love our concept and they progress much faster than in a conventional environment.

Today still, we offer a school in Newlands with a garden and a swimming pool. Learning in a pleasant environment is more fun and more efficient. In addition, we also opened a second school in the city centre because we learnt that some clients just prefer the city buzz. To remain loyal to our original concept though, we have chosen a historic building which is one of the most beautiful in the area. It is also located in a pedestrian zone, providing a quiet learning environment in a busy area.

A good location and great premises are important for our clients to feel comfortable, but without our great team of staff, Good Hope Studies would not be who we are. Our staff will go to great length to ensure that everyone feels well taken care of and progresses as fast as possible. We'll be delighted if you put us to the test and give us the chance to give you proof.

it's all about YOU

Good Hope Studies is Equals accredited. After a rigorous application process, we have on-site inspections every four years by highly qualified Equals inspectors. When you enrol at an Equals-accredited centre, you are assured of international standards of the highest quality.

Each lesson takes 50 minutes. When comparing courses, keep in mind that shorter lesson times mean less progress in the time you have available.

When you book a half-day course, you can be certain that the course takes place in the mornings only, giving you more free time in the afternoon to explore the city and use your newly acquired language skills.

maximum 10 students

We limit our classes to a maximum of 10 students. By keeping the group small, we offer more attention from the teacher and more interaction time in the lessons. Smaller classes mean making faster progress and higher student satisfaction.

teacher training centre

start any Monday

Good Hope Studies is a teacher training centre for CELTA and Delta. These courses are approved and moderated by Cambridge English Language Assessment in England. As a training centre, we have access to the best qualified teachers available.

For your convenience, you can start a course any Monday. Our classes are organised around a 5-week cycle, after which we change the course book and students move level.

our course programme

We take your study goals seriously and support you in getting there. Our classes are highly intensive due to the small number of students in each class. Our South African teachers hold internationally recognised qualifications and are fully committed to going the extra mile for you.

Morning classes

Our morning classes for general English are ideal if you want to improve your everyday communication skills. Small classes and well-trained teachers guarantee fast progress. The course content includes grammar, lexis and all four skills: speaking, listening, reading and writing.

Our general English courses are offered at 7 levels from Beginner to Proficiency. You can book these classes Monday to Friday (**GENERAL ENGLISH 20**) or Monday to Thursday (**GENERAL ENGLISH 16**).

Afternoon options

Add an afternoon option to your morning class to intensify your studies or improve in a specific area.

For general English, you can either book one focus group (**SEMI-INTENSIVE**) or two focus groups (**INTENSIVE**).

If you use English mostly at work or in a business context, we recommend **ENGLISH FOR WORK**.

We further offer IELTS and TOEFL exam preparation as well as **PRIVATE LESSONS**.

Cambridge Courses

Cambridge exams are recognised worldwide and are widely accepted by companies as proof of a certain level of English. We offer preparation courses for **FCE**, **CAE** and **CPE**. These courses are run as full-day courses and have a set course length. They are demanding, but the outstanding pass rate of our students is the best indicator for the quality of these courses.

Homestay

Room options: single room (double room if two people book together), shared bathroom
Meal options: Self-catering, breakfast only and breakfast & dinner
Travel distance to school: 10-45 minutes

This is the most popular option for staying in a South African family home. You are integrated in their daily life and have dinner with the family whenever possible. South African families are particularly well known for their hospitality and friendliness and will quickly make you feel at home.

If you choose the self-catering option, there is a kitchen available for your use and it gives you the full flexibility of eating out whenever you want to.

In case of "breakfast only", the kitchen is not available to you, but you eat out with

your friends every evening.

The most popular option however is breakfast and dinner, which is not only a cost-saving option but also gives you the biggest opportunity to take part in conversations with your host.

Homestay-Plus

Room options: single room (double room if two people book together), private bathroom
Meal options: breakfast & dinner
Travel distance to school: 10-45 minutes

Especially for more mature students and for those who want to enjoy more comfort at a host family, we recommend this accommodation option. At Homestay-Plus, you enjoy a private bathroom and a higher standard of living in general.

Anna

"To choose a homestay was a very good decision. You don't only have the opportunity to improve your English, but on top you learn something about another culture. I've met such lovely people, who take care for me very well."

Through our sister company, Good Hope Volunteers, we are able to offer a comprehensive volunteer programme. Over 30 projects are available in southern Africa. If you want to combine a language course with volunteering, there are a number of projects available in Cape Town where you can attend a language course in the morning and volunteer in the afternoon or attend a course first and volunteer after the course is finished.

None of the projects we work with could function without the dedication and hard work of volunteers from all over the world.

You will assist your project not only with your dedication, time and skills, but your financial contributions will also enable them to make their visions come true. A child's smile or a healthy animal released back into the wild are the rewards for your hard work. You also have the opportunity to experience the country in a way that no tourist ever will, make friends and broaden your horizons.

Most projects available are community projects where you work with children or elderly people. However, a nature conservation project is also available.

Learn in the morning, volunteer in the afternoon

If your English skills are at an upper-intermediate level or higher, you can attend a language course in the morning and volunteer in the afternoon. Please check our price list which projects are suitable for afternoon volunteering.

Volunteer without a course

You can join any of our volunteer projects without attending a language course. For most projects no specific skills are required apart from an English level of upper-intermediate or higher.

Attend a language course first

Ideally, start with a language course of your choice first and volunteer once the course is finished. You can continue staying at the same accommodation and choose any of our Cape Town based projects.

Jessica

from Brazil

"The experience was way more than I expected. I got to practice my English, to learn how to live with other people with different cultures in the backpackers, and of course, work with the amazing children. It really amazed me how they're loving of anyone who comes in to help. ... The community of Imizamo Yethu is so warm and loving, it is truly amazing to see how they can be happy with so little. It really gives you a chance to rethink about what matters in life."
