We feel proud that you are considering ELI to be your school. We intend to go above and beyond to ensure you have the best experience at ELI. Why ELI?

Community

Led by our Student Experience team you will be invited to participate in social events, activities, and workshops to get to know the city and to meet likeminded students who are on the same journey. Experienced students are encouraged to share their stories and tips on finding jobs, long-term accommodation, or even just good places to eat and fun things to do. Our teachers inspire a sense of community in the classroom by encouraging communication and participation.

Diversity

We thrive on diversity. We seek to create a global community of learners from different countries, lifestyles, cultures, and traditions all united by a common goal to transform their lives through English. We hope by accepting diversity and embracing the opportunity our students will make international connections and friendships that will last a lifetime.

Sustainability

At ELI we strive to build a sustainable business that is socially responsible and has a positive impact both locally and internationally. We know our business has a hugely positive economic impact on our local communities, and potentially life-changing consequences for our students, but we are also aware of the carbon impact of what we do. In 2022 we invested in reforestation projects in Ireland and overseas and have planted over 10,000 trees to off-set the carbon created by our business.

Memberships & Accreditations

All students enrolled on this programme are required to sit a recognised exam if they want to register for another programme. Our programmes prepare early learners from elementary to intermediate to take a Test of Interactive English (TIE) where more advanced learners can prepare for the IELTS exam.

Why Ireland?

The country has a rich cultural heritage in music, art, poetry and dance and the cities are buzzing with things to see and do. Our Programs

Our core program is General English 15 hour which focuses on the four main skills (writing, reading, speaking, and listening) while developing each student's individual grammar and vocabulary. Students can upgrade to a 20-hour program with a choice of Speaking Fluency, Business or Academic English. Our curriculum and teaching methodology has been designed to match the highest international standards, yet we personalise our approach so we can meet the needs of every individual learner.

Teaching Methodology

Using a communicative approach our lessons are taught using a task-based method involving topics and themes from everyday life. We use a central course book for each level and teachers supplement these using authentic materials including newspapers, magazines, and a suitable use of technology.

Strong Curriculum

Our curriculum is carefully planned and mapped to the Common European Framework ensuring a global standard. Our curriculum includes a progress test every 6 weeks and a progression test every 12, with a class test every week to ensure you understand and know where you are at every step.

Right to Work & Job Support

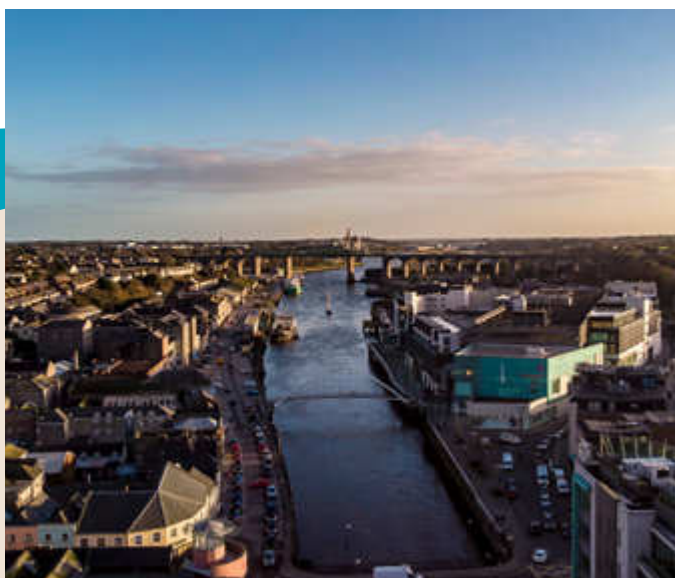

We know many of our students are eager to find part-time work while studying with us. All students enrolled on this programme are entitled to work 20 hours per week throughout their course and for the duration of their visa. Students are also entitled to work full-time 40 hours per week during holiday periods.

How does this help you?

- ① Enables you to generate income.
- ② Gives you the opportunity to improve your language skills by working with a real organization.
- ③ Also give you the chance to network with people working with leading companies.

We host a weekly workshop to give advice on how to structure and format a CV and provide practical information on how to find work. While the emphasis is always on the student to find their own job, we also partner with employers in healthcare, hospitality and food production to place students in real employment.

Jobs in Ireland

You can get a job in all sectors, but the employability of a candidate and the time it takes depends on their experience, level of English and the determination to find the right job. There are great opportunities for employment in all industries; especially in the hotel and restaurant industry (hotels, restaurants, cafes, etc.) where there are opportunities for all levels of English and any degree of work experience.

Accommodation

Amongst our many services, we also offer you accommodation in a host family or student residence. The duration of your stay and the type of accommodation, depends on your budget and future plans. However, we recommend trying our housing options for the first 6 weeks of your stay in Ireland.

We offer a choice of homestay or student residences. Irish hospitality is world famous and our hosts ensure that our students have a pleasant and warm stay. Staying in the right homestay is critical to feeling happy and to creating memories that will last a lifetime. All our hosts have been inspected by our team and have passed police checks.

ELI also offers accommodation at a student residence. Staying in a student residence offers a more independent living experience. Our residences are in the city-centre within a short distance of the school and close to all the attractions. Student residences offer single rooms on a self-catering basis and include a range of onsite services.
