ELS's new American Experience course is a "guide to American culture and life" and will provide many opportunities for you to personally connect with Americans, highlight the expectations of the American education system, and empower you to take control of your success at ELS and beyond. You will practice your English language skills firsthand in experiential learning activities (sports and wellness, volunteer opportunities, field trips, museum tours) and will gain confidence in your new study environment.

INTENSIVE ENGLISH

PREPARE FOR ACADEMIC AND CAREER SUCCESS

Intensive English* is our most comprehensive program, providing the highest level of proficiency for language learning. The curriculum is designed to help you succeed by focusing on all elements of the language: listening, speaking, reading, writing, pronunciation, grammar and vocabulary.

The Intensive English program will fully immerse you in the curriculum with 4-6 daily lessons with a focus on:

Academic and Career Communication Skills: We will prepare you with the necessary communication skills specific for academic and career success, including public speaking, note-taking, research, presentations and more.

Real World Application: The goal for all ELS programs is to provide real world language learning that can be applied in real settings. To this end, you will have practice conversing using spoken English in actual real scenarios.

Communication Enhancement: Studying with ELS provides a rich cultural experience that extends beyond the classroom. The brand-new American Experience class combines online learning with interactive out-of-classroom lessons that allow students to use the language and explore the culture first-hand.

SEMI-INTENSIVE ENGLISH

EXPERIENCE CULTURE AND LANGUAGE

The Semi-Intensive English program allows you to learn English and get a true cultural experience at the same time. The strong ELS English curriculum ensures you will become proficient in English, while the course schedule ensures you have the necessary time to experience all the attractions and culture in the city.

The morning classes focus on all aspects of language and communication learning, including listening, vocabulary, grammar and pronunciation. The classes are structured

to provide speaking practice and real world application to give you the confidence to use your lessons in social settings and interactions with students.

With the Semi-Intensive English program, you will have afternoons and evenings free to explore the city and the surrounding area. This freedom provides ample opportunities for speaking in real world settings, as well as having the ability to organically experience the culture of the city.

The dual nature of the Semi-Intensive English program makes this a truly unique experience. With less time in the classroom, you will truly be able to practice in the real world on a daily basis. While in the classroom, you will receive comprehensive language instruction designed to make you comfortable in any situation where English is being spoken.

“The incredible thing is that I had never spoken English before I came to America. After my first year learning English at ELS, I enrolled in the Master’s Program at the University of Missouri - St. Louis. With the help of the teachers here, I am able to write a seven-page research paper and I received two A grades during my semester. My life changed at ELS St. Louis.”

BUILD YOUR EXPERIENCE

VENTURE OUTSIDE THE CLASSROOM WITH STUDENT ACTIVITIES

TRIPS

You will enjoy a variety of opportunities to take trips when not in the classroom. Whether it is a trip into the city or an adventure outside the ELS location, there is plenty to see and do. These trips provide you with the freedom to explore the culture and area on your own terms.

CAMPUS LIFE

Students studying at one of our on-campus locations benefit from full access to the host university's facilities and services. For example, the university library, dining halls and cafes, computer labs, campus recreation centers, fitness and wellness classes, pools, climbing walls and more.

HOUSING OPTIONS

MAKE YOURSELF
AT HOME WITH ELS

ELS programs are about much more than simply language learning; they are about an experience. A big part of that experience is living in the United States, which is why we provide students with a variety of housing options to choose from to ensure they are happy and comfortable.

Our number one goal is to provide a safe, welcoming environment in all of our housing options. We take great care in selecting these housing options to allow students to focus on their English language programs and discover new culture both in and out of the classroom.

We understand that students have different preferences and strive to offer a diverse selection of housing options to meet the needs of all students.

For more information regarding ELS housing options, visit els.edu.

ON-CAMPUS STUDENT RESIDENCE

These apartment and dorm-style housing options give students the opportunity to get the full university experience. Students will live on campus, putting them right in the middle of the action at all times. On-campus living will also make it easy for ELS students to meet, interact and engage with other university students, as well as make it easy to access the many campus facilities available.

HOMESTAY

With the ELS Homestay option, ELS students are placed with an English-speaking host family. Our host families are carefully selected and are eager to help international students with their language-learning-journey. The direct exposure to culture and customs can expedite the English language-learning process and many students that select the Homestay option develop special connections with the host family that can last a lifetime.

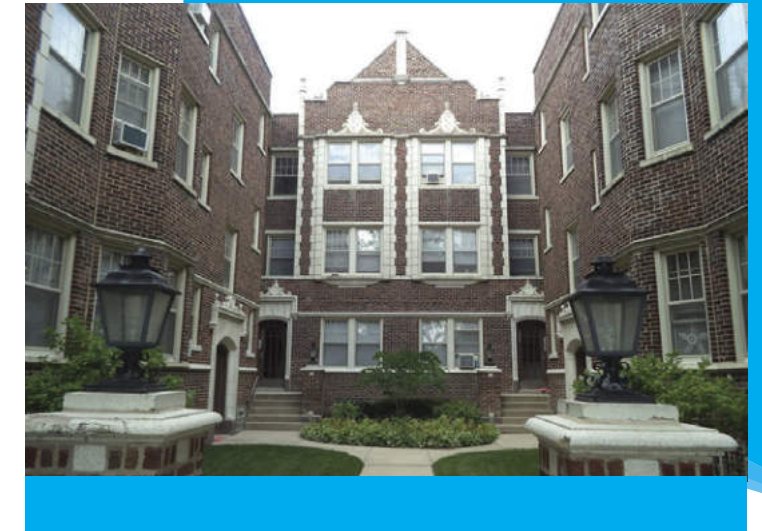

APARTMENT HOUSING

Another option for more independent students is renting an apartment near the ELS center. The cost and conditions of apartments vary depending on location. Some ELS centers do have relationships with local apartment providers.

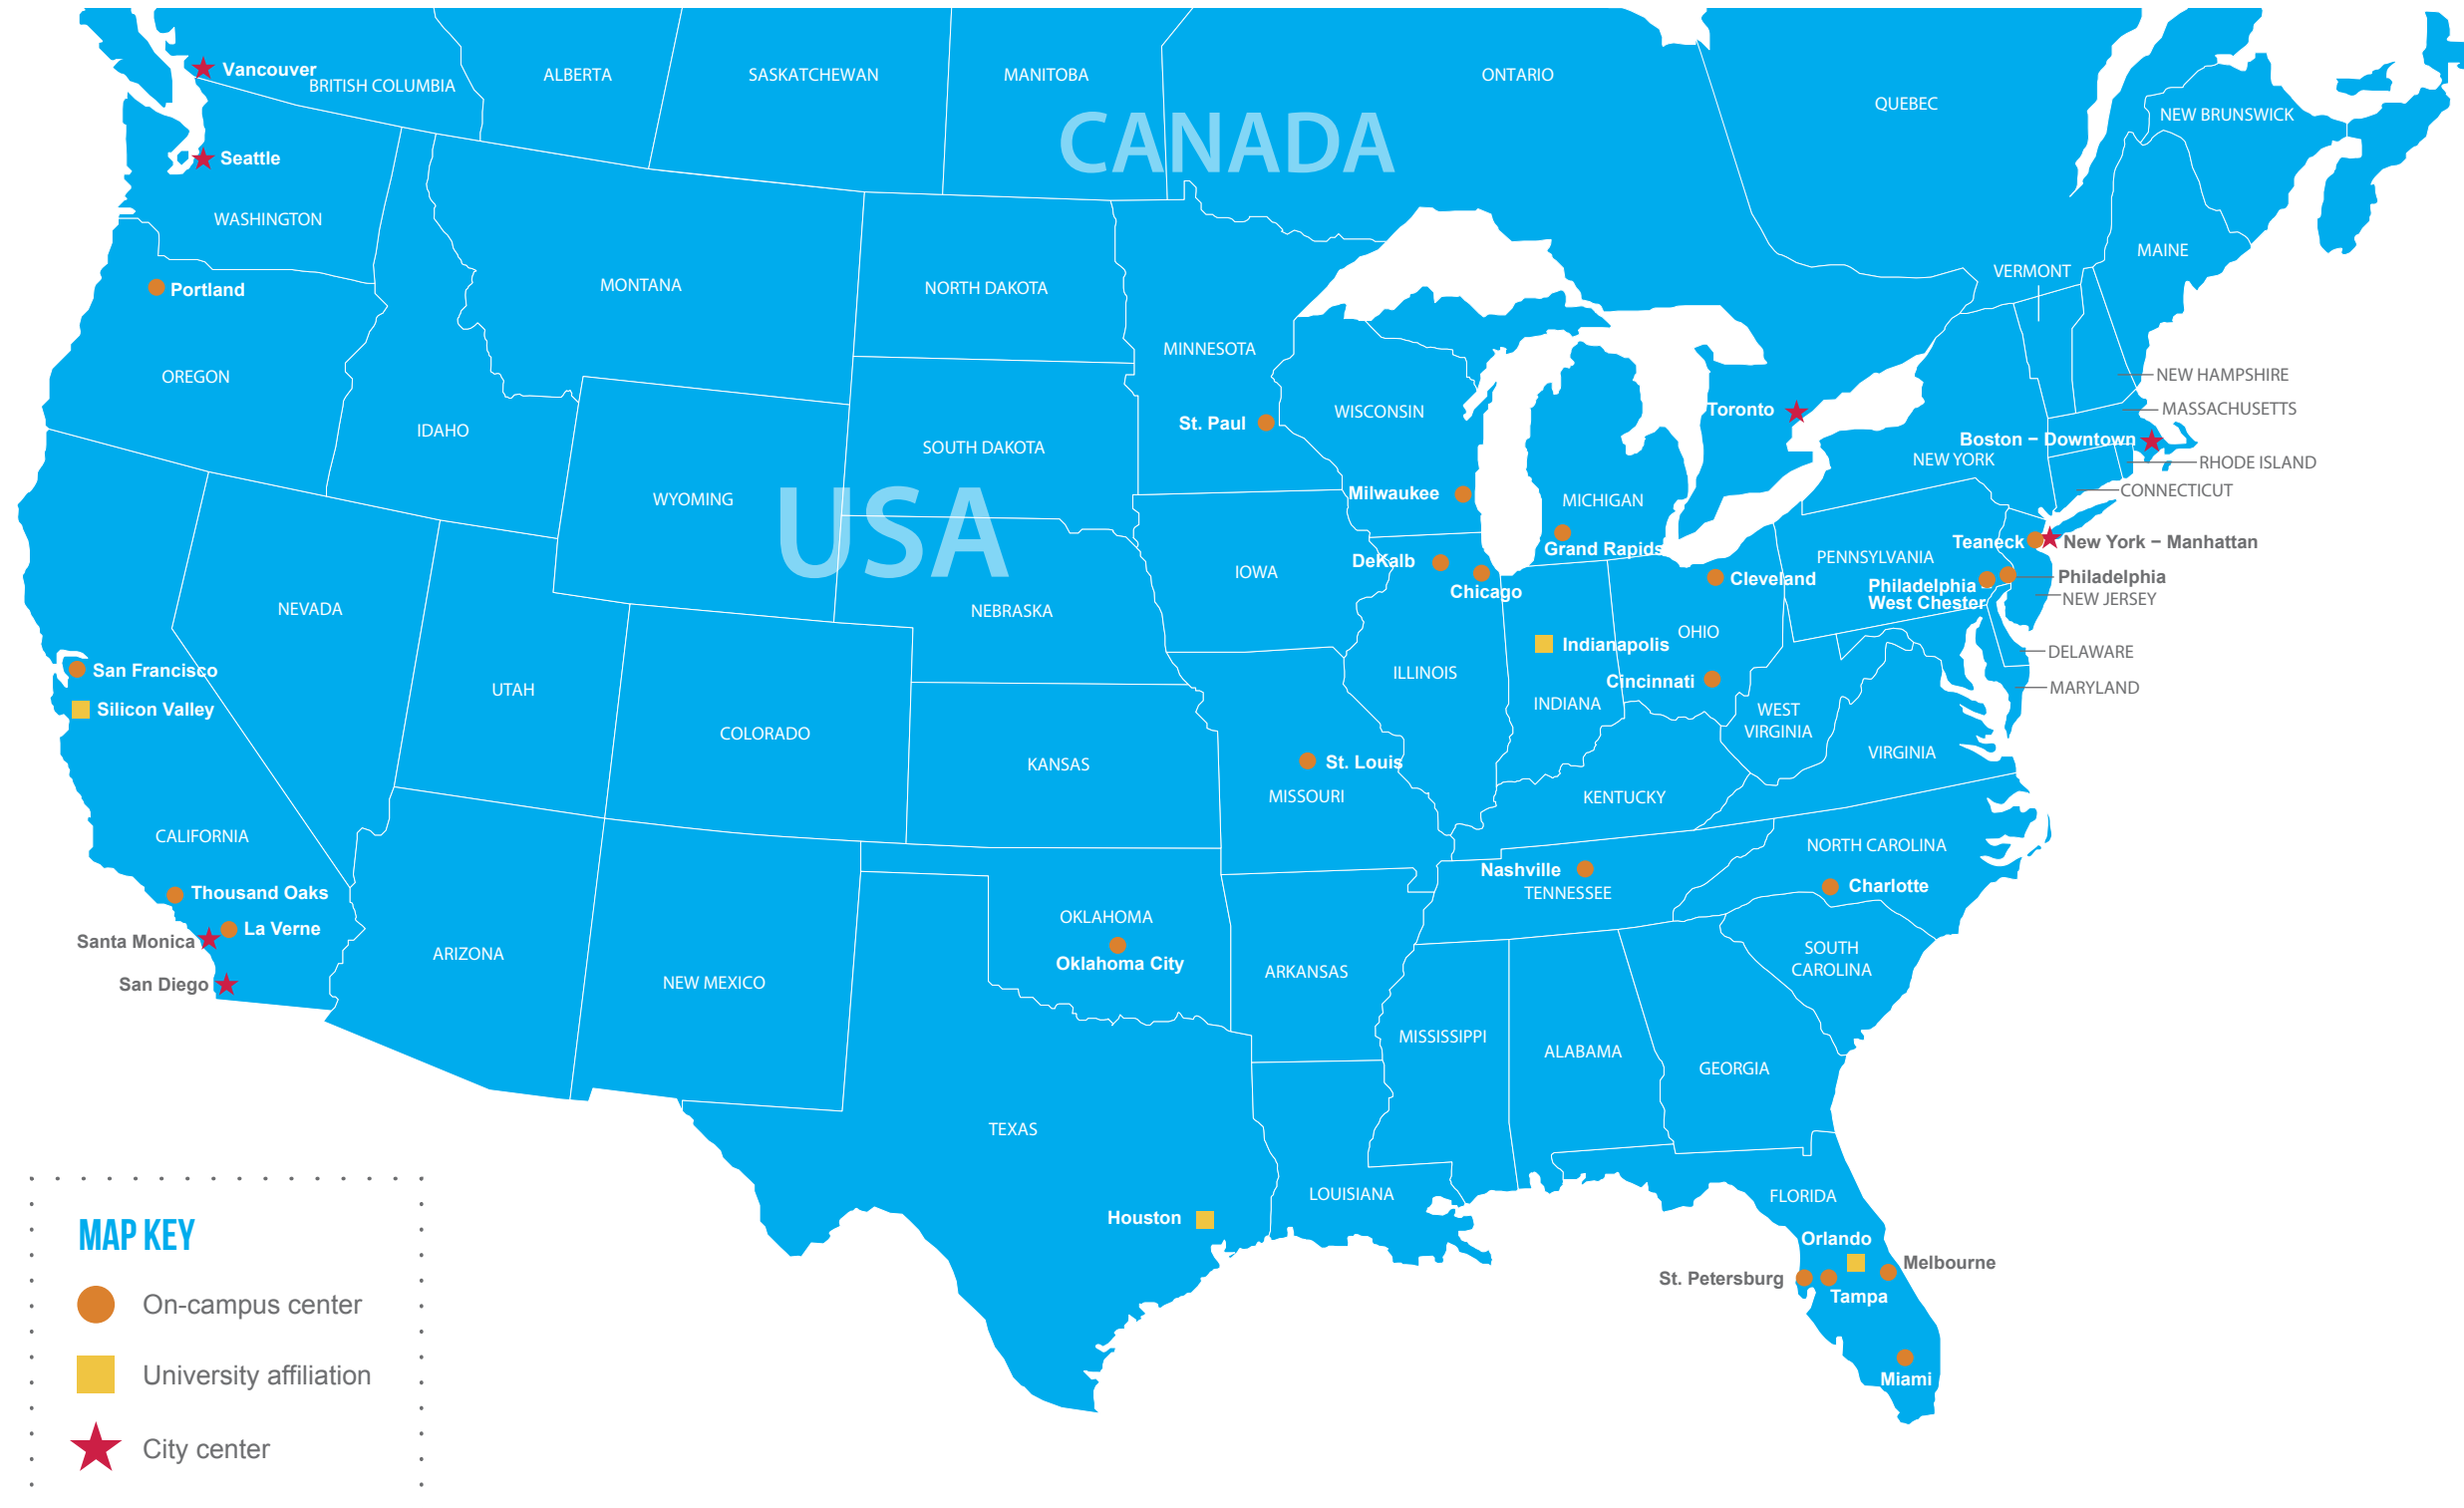

OFF-CAMPUS STUDENT RESIDENCE

The off campus residence housing options offer ELS students the opportunity to live with other university students, and also experience the community outside the campus every day. Living off campus is a unique experience, in that students will be able to explore and experience traditional American culture outside of a university setting.

THE LARGEST NETWORK
