Lessons are designed for students to practice all four language skills (speaking, writing, listening and reading comprehension), receive information on the exam format, and take sample tests. Students will receive advice from our teachers, trained in teaching Spanish as a foreign language (ELE) and in preparing students for official Spanish language exams, with the added value of following a course with our very own method, the result of 60 years of experience and of putting an emphasis on educational quality.

## SIELE PREPARATION COURSE

**SIELE** stands for the International Assessment Service of Spanish Language, which certifies the degree of command of Spanish through electronic media, aimed at students and professionals from around the world.

It draws on the levels established by the Common European Framework of Reference for Languages (CEFR) of the Council of Europe.

Estudio Sampere offers students the possibility to prepare for the multi-level examination and optimize results, whether in a specific skill or globally, if they plan to take the entire test.

The course consists of 20 lesson where students will practice all four skills and familiarize with the electronic format of the exam, while practicing the language but also adjusting to the time limits of each test, the way the electronic system works, how to listen and record the oral tests etc. Students may choose between **two to four-week courses** and their preferred location: Alicante, Madrid or Salamanca.

# "Salud" program

## SALUD PROGRAM

### AVAILABLE AT:

- CUENCA

Our **SALUD (Health) program** is aimed at **students of medicine, nursing or pharmacy** who wish to learn Spanish medical vocabulary, and get acquainted with medical healthcare practices in a Latin American country. It also includes observation of medical practices in a non-profit health center in Cuenca, Ecuador. Due to Ecuadorian regulations, students may only participate as observers, and share their opinion with the healthcare personnel, but they cannot examine and/or explore patients.

This program consists of a full professional and linguistic immersion as, for the duration of the experience, participants will be in contact with the Spanish language, the work culture of the different health centers, the academic culture of the doctors, nurses and healthcare personnel, and the local culture of the patients. Students wishing to take part in this program are required to have a **B1 level in Spanish**, which may be acquired or consolidated with the **intensive 4-week course included** in this program. However, if after this course they feel that they lack confidence in the language, they may also extend their Spanish course at Estudio Sampere until they feel they have the necessary tools to enjoy this experience.

### OUR SALUD PROGRAM INCLUDES:

- **Intensive Spanish course:** Students will take part in a 4-week course on Spanish language, culture and civilization. These lessons are organized in small groups to ensure a communicative and progressive learning experience.
- **One-to-one lessons:** during the second, third and fourth week of the program, students will have 5 private (one-to-one) lessons per week, focused on the health system of Ecuador, related vocabulary and medical terminology.
- **Medical observation:** participants may participate as observers for three weeks in different hospitals and local clinics in Cuenca. This is a one-of-a-kind opportunity, where every day provides the opportunity to learn from the experiences and decisions made by healthcare personnel, ask questions and see real medical situations.
- **Visits to public and private healthcare facilities:** participants will have the chance to see the different types of facilities available for Ecuadorian patients, according to the specialty and the type of condition that they suffer from.
- **Guided tours and cultural activities:** On the first day of the program, participants will enjoy a cultural guided walking tour, where they will see everything that Cuenca has to offer: lots of museums, restaurants and hotels, traditional bakeries, and craft workshops, among other options. Estudio Sampere Ecuador has a wide cultural range of cultural options for students to discover every week, which will very likely make them fall for this city with every passing day.
- Single room and **full-board accommodation** with a host family.
- **All course materials.**

# Accommodation

## Accommodation options:

- Host Family
- Student Residence
- Student room - shared flat
- Apartment - studio
- Hotel

**Good, comfortable, welcoming accommodation** makes all the difference when it comes to your Spanish studies in **Spain, Ecuador or Cuba**. We understand this and work hard to give you the best choices of accommodation in all destinations.

**Estudio Sampere inspects all accommodations and selects them based on their good value, cleanliness, reliability, facilities and location. We have direct management of the accommodation, avoiding any intermediary.**

Our accommodation team will go above and beyond to find the best option for you, based on your needs and preferences. **Our team will advise you and assist you**, should you have questions on the geographical situation of the area that you will be staying at, getting to school, communicating with your host family or the owner of the apartment, living with other international students, and particularly with Spanish speakers, as well as on their traditions and customs, gastronomy, and your food preferences. **The idea is to adapt everything to your daily habits, so that you feel like home.**

**We know every student is unique, and has a different lifestyle. Whatever your option and your destination is, you can make sure Estudio Sampere will make you feel at home!**

## STUDENT ROOM

Renting a student room provides a more independent lifestyle. Students share an apartment with 2 to 4 other people, usually other Sampere students, with whom certain expenses and household tasks can be shared.

## STUDENT RESIDENCE

This type of accommodation is available in certain destinations and programs. It includes full board and laundry facilities.

## HOST FAMILY

This option provides a **full linguistic and cultural immersion**, since students not only practice the language in class with their teachers, but also have real-life experiences with their host family. **They help students on their day-to-day, and teach them vocabulary and expressions that are typical of each region**, and of each member of the family. This way, students get a first-hand approach on how to live Spanish speakers, their local gastronomy and jargon.

At home, students will share the common areas with the rest of the family: the living room, kitchen, bathroom, but they will have, of course, their own private bedroom. **In case of couples or friends travelling together, the choice of a double room is also available.**

Families have been **carefully hand-picked** to meet our requirements. As language experts, we know that being away from home can affect the student's learning and overall experience. Thus, our families are used to **welcoming students and making them feel part of the family**. We select the family based on the students' interests, so that

this experience can provide both an **academic and a personal enrichment**.

Students can choose the half-board option, if they also want to try the delicious local cuisine offered by each destination at local restaurants, or full-board if they want to take full advantage of the experience of discovering traditional dishes, prepared with great care by the families.

**The Director of each school, always at the student's disposal, can change a student's accommodation if the need arises.** If the student is not happy and wants to change family, the School will propose the names of three additional families that the student can visit and then make his/her choice. There is no extra cost if a student decides to change families.

Thanks to our **more than 60 years of experience** hosting students, we are confident that we will be able to fulfill your expectations. Our most recent satisfaction survey shows a **90% success rate**, both for students and for members of the families.

## APARTMENT - STUDIOS

Apartments are available for individual students or two people booking together. Typical studio apartments feature 1 or 2 beds, a bathroom and kitchenette for an enjoyable and comfortable stay.

## HOTELS

Estudio Sampere can recommend hotels and hostels for different budgets in all five destinations. These properties are located close to the schools. We have worked with these accommodations for many years and have special rates in most of them.

The area is an authentic Cuban neighborhood, only 15 minutes away from Habana Vieja. Families are walking distance from the School and do not offer meals. Residence rooms are located within school grounds and across the street. Independent apartments very close to the school are also available to be shared with other students. Each apartment has: two rooms (one with 1 bed and the other with 2 beds), large full-equipped bathroom and kitchen, air conditioning, a balcony or patio. Towels and bed linen are provided. The school's cafeteria serves breakfast and lunch every weekday and, on weekends, dinner instead of lunch. Meal time is a very important moment as it's an opportunity to engage with other students and the school's staff. The food is rich and local, prepared freshly everyday. The neighborhood also has local restaurants called paladares, small shops, street vendors and other services.
