We integrate 21st-century skills into our English courses to equip students for today's demands. Our weekly assessments feature motivating tasks where actively participate, demonstrating both language proficiency and essential skills.

Through creative and problem-solving tasks, learners develop critical thinking by analysing information, forming reasoned judgments, and making decisions. Mediation skills are honed as students navigate and resolve conflicts, fostering understanding and collaboration.

Communication skills are emphasised with activities that encourage clear and effective expression of ideas, both verbally and in writing. Creativity is nurtured through tasks that require innovative thinking and generating original ideas.

Our courses also highlight media literacy, teaching students to critically engage with various media forms and understand their influence. Problem-solving tasks challenge learners to identify issues, think logically, and develop effective solutions.

REAL-LIFE MATERIALS

Our programmes challenge learners with real-life materials such as newspapers, magazines, TV, and radio, enabling them to communicate effectively with English speakers from all over the world.

21ST CENTURY SKILLS

We integrate 21st century skills into our English courses to ensure our learners are well-equipped for the demands of today's world. By integrating these skills, we prepare our learners not just to succeed academically but also to thrive in their personal and professional lives.

LEVEL PROGRESSION

At IH Dublin, we believe that assessment should primarily be a formative process, providing a true reflection of students' capabilities and informing students of their learning needs and successes. Our assessment system is tailored to meet the individual needs of students and is integrated throughout their courses.

Pre-Arrival: Students take an online placement test before arrival. This ensures they are placed at the correct level.

Daily: Success in daily classes enable students to engage in self and peer assessment, while also receiving targeted feedback from their teachers.

Weekly: Every week, students participate in a progress evaluation. These evaluations serve as valuable checkpoints to monitor students' language development and understanding. By regularly assessing their progress, we can provide appropriate support and guidance to help students excel in their language learning journey.

At IH Dublin, we cater to all language proficiency levels, from Beginner A1 to Advanced C2. Our comprehensive approach also includes preparing students for various exams, such as Trinity ISE Foundation, B1 Preliminary PET, B2 First FCE, C1 Advanced CAE, C2 Proficiency CPE, and IELTS.
