# About Oxford

## A studious learning ambience since 1973

An academic centre of excellence, Oxford has long been associated with learning. OISE Oxford is situated in the heart of this historic city.

OISE Oxford aims to provide a professional and comfortable environment which enables students to make maximum progress during their chosen period of study.

"I founded Oxford Intensive School of English on a strong conviction that total mastery of a second language requires learning determination guided by tutors who are pedagogically demanding of each and every course participant while providing individual support to use the language with confidence and serenity and aim for eloquence in speech and elegance in the written form. Being ambitious for the achievements of each individual student soon became an essential core value of OISE Oxford and I feel very proud that it is still kept very strong today"

# Tutorial™ Programmes:

## needs driven

---

The Tutorial™ lesson, a teaching tradition of Oxford University, is one of the most effective methods of language learning. Tutorial programmes are conducted by means of one-to-one tuition thus allowing the course to be fully adapted to the precise level and needs of each participant. Tutorial courses offer 15, 20 or 25 of one-to-one tuition per week.

### A balanced timetable

Prior to arrival, students complete a Needs Analysis to determine their goals. Each participant is then assigned a team of tutors who each specialise in a different aspect of the curriculum.

### Specialisations

Tutorial tuition allows for the course to concentrate on a specific area of focus such as:

- professional: work-related terminology (e.g banking, pharmaceutical, legal, finance) or management communication skills such as presenting, negotiating, public speaking, leading.
- academic: study skills and also to prepare students for the language component of a specific examination.
- achievement of an official certificate: for those wishing to take an exam such as IELTS, Cambridge exams, TOEFL, TOEIC, etc.

### The Integrated Tutorial™

The Integrated Tutorial™ programme combines one-to-one Tutorials with group workshops, offering students the benefit of interacting in English with a group, alongside intensive individual tuition. A high intensity programme designed for the achievement of mastery of the language in order to succeed at the highest level of C1. It is composed of 20 hours of lessons per week with a tutor-student ratio of 1:4

### Course content

#### Flexibility for Use of English

Students develop flexibility in their use of the English language by building their lexical and grammatical range. There is a strong focus on accuracy. The skills that are honed in this module are the foundation stones for the modules which follow it, as they equip the student with the language needed to express themselves clearly, accurately, eloquently, and with linguistic flair.

#### Confidence for the spoken paper

Students build the skills required for face-to-face interactions, with a focus on successful communication and articulation of concepts, effective discourse management, clear and effective pronunciation, and flexible and accurate use of structures and vocabulary. Developing the use of compensation strategies also allows students to maintain their confidence and communicative competence when faced with linguistic obstacles.

#### Strategies for effective reading

In this module, students are exposed to, and familiarised with, a variety of text types. Skills developed include: speed reading, understanding text structure, critical analysis, and determining an author's position. The range of texts used includes newspaper articles, fiction, magazine articles, and non-fiction prose.

#### Listening skills

Preparation for the listening paper helps students build the skills to be able to follow and understand a range of spoken materials. These include radio broadcasts, interviews, presentations and talks, as well as everyday interactions. Materials such as TED talks and BBC broadcasts are used to develop the required skills, including: working out the meaning of unknown words, following the structure of speech, and summarising a talk.

#### Written eloquence

Students practise writing different text types, including essays, reports, articles and letters. They are trained to understand the differences between these types of writing, and to use their linguistic skills to reach their communicative objective in any style. There is a focus on how to structure a text clearly and logically, as well as planning, time-management, precision and clarity.

Tutors set assignments for homework, and mock tests, taken under exam conditions, allow both tutor and student to monitor progress, as well as highlighting areas and tasks which may require a highly targeted focus or more intensive work.

# Accommodation and Transfers

---

## Homestay

Each host family is selected and monitored according to strict criteria laid down by OISE. Homes must be comfortable, the hosts welcoming and, above all, genuinely interested in receiving students and helping them to develop fluency in the English language. Homestay accommodation includes a single bedroom with ample space for study as well as breakfast and dinner each day.

## Hotel

OISE recognises that some students would rather not have to adapt to living in a host family and prefer to stay in a hotel or private apartment. Please contact OISE Oxford for hotel recommendations or advice about private accommodation.

## College

During the month of July we have a number of rooms available at Oxford University's Jesus College. This accommodation is ensuite and includes breakfast and dinner each day in the historic college dining hall. There is a supplement of £860 per week for college accommodation.

## Transfers

OISE is happy to arrange transfers from a student's arrival airport or station to their accommodation in Oxford.

Transfer prices one-way	
Heathrow/Luton	£185
Gatwick/Stansted	£205
St Pancras/Central London	£205

## Social activities

The school organises regular lunches and coffee breaks which bring students together to be able to exchange and share ideas and experiences.

## Care of under 18s

Where the student is under 18, the duty of care is likely to extend to taking the care that a reasonably prudent or careful parent would take of his or her children in the circumstances.

OISE Oxford understands that under 18s from overseas may not have the same knowledge or experience of the UK as home students so may be more vulnerable to harm than home students of the same age. All children and young people have the right to protection from abuse, freedom from injury and a safe and healthy environment while under the care of OISE Oxford.

OISE Oxford is committed to providing, as far as is reasonably practicable, an environment that is safe from harm for those under the age of 18.
